11. [ ] Briefed Senator Milton Young (R., N. Dak.) on some sensitive information relating to Soviet strategic missiles.

25X1

12. [ ] David Dorsen, Assistant Counsel, Ervin Select Committee, called and said that Ambassador Helms had been re-scheduled to appear before the Committee at 0930 tomorrow morning. (We advised the State office supporting Helms.) He said that the line up would be Helms, Cushman, and Walters and that if the Committee did not get to Cushman by 1200, then Walters would not testify until Friday, August 3.

Later in the day Dorsen called again to get clarification on the attachments to General Walters' 6 July 1972 memorandum, the material provided in connection with Helms' 24 October 1972 memorandum, and the delivery of the Xerox copies of the Hunt photographs to the Bureau and Justice.

I told Dorsen that I had been trying to get through to Rufus Edmisten on some supplementary sensitive material, which Jim Calloway, Senate Appropriations Committee, had mentioned to Edmisten in connection with Vol. III of the CIA documents. Dorsen said I could and should meet with him on this material at the earliest possible time to assure that there is nothing that would relate to tomorrow's testimony by Helms, Walters, and Cushman.

At 4:00, Mr. Warner and I met with Dorsen to review the supplementary material, answer several questions concerning the CIA documentation and provided him with a little of the chronology of certain events. I asked Dorsen if he could give us any feel for the areas of particular interest so that Walters could be alerted. He suggested a session between himself and Walters at 5:30 tomorrow. In response to my question, Dorsen said that he would conduct the ~~supplementary~~ open hearing and that Dash would be handling Walters.
